Shell Gannet A

Platform ID Signs

The existing platform ID signs on the Shell Gannet A were badly faded and peeling. MSD Design Ltd designed, manufactured and installed new signs which greatly enhanced the appearance of the platform.

Total Elgin Platform

Platform ID Signage

Existing obsolete signage panels were removed and replaced with new panels designed in GRP complete with Integral company logo. New signs were required in four positions - all over the site and inaccessible except for the MSD Design Ltd rope access team.
